

BALLISTIC AND FRAGMENTATION BLANKET

OVERVIEW

A light weight & portable ballistic and fragmentation resistant blanket, which can be configured in any shape & size, & can be easily folded over, or placed on top of any ballistic threat. It gives emergency protection against blasts & fragments in the event of an explosive device detonating before it can be neutralized. It is quick & effective against most pipe bombs, hand grenades and fragments caused by pressure or electrical explosions.

FEATURES

- Bomb Blanket is available in different sizes as per the customer's requirement.
- The Blast Containment Ring/safety circle is also made of Aramid fabric.
- The bomb blanket is made with multiple layers of treated Aramid fabric.
- Bomb blanket is sewn into a water repellent cover.
- The weight of the Bomb Blanket is such that it can be carried by one person.

PROTECTION LEVEL

Protection against fragments of

- V50 – 400m/s
- V50 – 500m/s
- V50 – 600m/s
- V50 – 650m/s

Also Protects against 9mm FMJ, .357 Magnum & .44 Magnum Bullets.

Bomb Blankets are also used for:

- IED/IOD operations
